ZODE

01 WHAT ZODE DOES

Sovereign Intelligence.

ZODE manufactures rapidly deployable supercomputers.

90 days
Order to production

Tier III
N+1 power and cooling

NVIDIA
Reference architecture

01 Sovereign
Owned by the communities and countries that deploy it.

02 Distributed
Many small sites near their users, with no single point of failure.

03 Sustainable
Sited beside renewable and stranded power, in pods that move.

04 Open Source
Open standards and software, from the rack to orchestration.

02 CAPACITY PIPELINE

5 Sites ready to close	**66.8 MW** IT capacity ready to close
~925 MW Power under LOI	**1 GW+** In active negotiations

03 CUSTOMERS

$485M
Contracted revenue, signed

$20B
In letters of intent

LOI

Crusoe · THINKING MACHINES · together.ai · sfcompute

04 LEADERSHIP

Matthew J. Dorey — FOUNDER & CEO

Wilder World	Persistent simulation	2020–Present	$2B+ EV
Factory ZERO	Venture studio	2011–2020	
Curve Dental	Cloud dental records	2004–2011	$1B+ EV

STRATEGIC ADVISORS AND TEAM MEMBERS FROM

CAPITAL MARKETS	Goldman Sachs · Brookfield · Merrill (A Bank of America Company)
DATA CENTERS	aws · Meta · Google Cloud
MANUFACTURING	SpaceX · Tesla

05 KEY RESOURCES

Cluster builder	zode.org/cluster-builder	Compute model	zode.org/compute-model
Deck	zode.org/deck	Whitepaper	cypher.net/research/the-grid
